This Pamphlet

Contains a few pages taken from my Annual Catalogue of Church Plans for 1892.

MY SPECIALTY

Church plans of moderate cost, adapted to the use of Church Builders in all sections of the United States.

In the *New York Independent* of February 4th, 1892, Secretary A. J. Kynett, D. D., referring to my designs, says:

"Within fifteen years, and especially for the cheaper class of churches in the country towns and villages, the Methodists have taken the lead in the grace, beauty and convenience of their houses of worship." He then adds that the Board "has accumulated the largest and best variety of designs for cheap churches in the world." This was inadvertent as I made, and always retained possession of the designs, and became sole owner of them by purchase, November 14th, 1889.

Since then the Board of Church Extension of the M. E. Church and other societies sell them on commission to those who prefer to buy in that way and I sell direct to those who wish to deal direct with me.

During the year 1891, 600 of my church plans were sold. Total sales to December 31st, 1891, 5350.

SEND FOR CATALOGUE.

Free to ministers who ask for it with a view to building a church, to others the price is 24 cents.

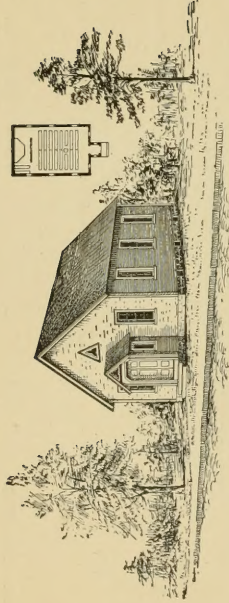

Address,

BENJAMIN D. PRICE,

ARCHITECT,

Lock Box, 1236.

Philadelphia, Pa.

BAILEY REFLECTOR CO., Pittsburg, Pa.
GENTLEMEN:—The reflectors bought for the "Christian Church," of this city, have been placed in service, and have been found to be like them in every respect. I have never used a better light, and I consider them well recommended in themselves, and the light which they give is all that could be desired. Please find my check for them. I shall probably order two for Louisville within a few days.

Respectfully,

50 W. 24 St., Lexington, Ky.

CHURCH WORK A SPECIALTY.

ESTIMATES FURNISHED.

BENJAMIN D. PRICE'S *Paper Imitation of Stained Glass*

For small churches and old churches having plain glass windows. Equally adapted to large or small windows—large or small panes of glass.

1900 Churches have used it.

The abundant testimonials received, show that it is a perfect substitute for shutters and sunshades; and for all churches, new or old, having plain glass windows, nothing in the way of decoration will cost so little and please so much as the use of this paper.

In ordering, always send rough drawing, showing size, shape, arrangement, and number of panes of glass in each window. Give sizes in figures, and make paper patterns of odd shapes. If a diagram is sent as above, and **fifty cents** enclosed, a design and full directions that will show clearly the appearance of the paper and how to apply it, will be sent.

A piece of wringer rubber roller, about one and a-half inches in diameter by three inches long, should be used in applying the paper. Price by mail, **twenty-five cents** each, or two for **forty cents**.

Price Six Cents per square foot, SURFACE MEASURE OF THE WINDOW.

All orders must be accompanied with bank draft on New York, Post Office Money Order on Philadelphia, or cash in Registered Letter, covering the cost. The paper is sent by mail, and safe delivery guaranteed. If ordered C. O. D., express charges will be added. Address,

BENJAMIN D. PRICE,
